

RF BASE STATION

LONG RANGE RF WIRELESS DATA COMMUNICATION HUB WITH IS FLEET MANAGER AND LAN WEBPAGE

The Benefits at a Glance

Our wireless technology platform delivers reliable RF self contained communication protocol meaning collected operational data belongs to you and remains inside the company. The Base Station has the ability to provide real time notification of lift truck operational events as it happens to a LAN web page or PDA device such as cell phone. No new infrastructure is required and there are no cloud or web based fees.

SkidWeigh RF Base Station
